

Portland Area Capabilities Exercise (PACE) 2019

April 30 - May 2, 2019

Push Partner Participation

tabletop exercises conducted

visits to county warehouses to pickup simulated medication

Closed PODs setup and staffed

Closed PODs dispensed simulated medication to their staff

I better understand the role my organization has as a Push Partner

Strongly Agree 47% Agree 27%
Neutral 20% Disagree 6%

The exercise will help us address gaps in our planning as a Push Partner

Strongly Agree 67% Agree 24%
Neutral 7% Strongly Disagree 2%

What Went Well

Great Discussion, participation and teamwork.

It was a great way to test plans and learn new ideas.

PODs are flexible and can be adjusted as you go.

Intake form and dispensing tools were easy to understand.

Areas for Improvement

We should stay more up to date on POD plans and so we're more prepared.

It's time to dust off the plan and update it!

Communication from the County was unclear and insufficient.

We need guidance on what to do with sick people at PODs.

THANK YOU

For your participation in PACE and your commitment to the Push Partner program!
